Contents of Volume 67

Articles

Distinct gene expression profiles in hippocampus and amygdala after fear conditioning.
Mei, B., C. Li, S. Dong, C.H. Jiang, H. Wang, and Y. Hu 1

Deficits in spatial orientation of children with intrauterine growth retardation.
Leitner, Y., D. Heldman, S. Harel, and C.G. Pick 13

Increase in number of the gap junctions between satellite neuroglial cells during lifetime: An ultrastructural study in rabbit spinal ganglia from youth to extremely advanced age.
Martinelli, C., P. Sartori, S. De Palo, M. Ledda, and E. Pannese 19

Systemic administration of lipopolysaccharide and interleukin-1β have different effects on memory consolidation.
Thomson, L.M., and R.J. Sutherland 24

Maintenance of upright standing posture during trunk rotation elicited by rapid and asymmetrical movements of the arms.
Yamazaki, Y., M. Suzuki, T. Ohkuwa, and H. Itoh 30

Effect of β-amyloid peptide on behavior and synaptic plasticity in terrestrial snail.
Samarova, E.I., N.I. Bravarenko, T.A. Korshunova, N.V. Gulyaeva, A. Palotás, and P.M. Balaban 40

An acute hyperglycemia or acidosis-induced changes of indolamines level correlates with PKC-α expression in rat brain.
Ramakrishnan, R., R. Sheeladevi, N. Suthanthirarajan, and A. Namasivayam 46

Involvement of 5-HT_{1A} receptors in the antidepressant-like effect of adenosine in the mouse forced swimming test.
Kaster, M.P., A.R.S. Santos, and A.L.S. Rodrigues 53

Differential contributions of hippocampus, amygdala and perirhinal cortex to recognition of novel objects, contextual stimuli and stimulus relationships.
Moses, S.N., C. Cole, I. Driscoll, and J.D. Ryan 62

Tramadol enhances hepatic insulin sensitivity via enhancing insulin signaling cascade in the cerebral cortex and hypothalamus of 90% pancreatectomized rats.
Choi, S.B., J.S. Jang, and S. Park 77

Face perception is mediated by a distributed cortical network.
Ishai, A., C.F. Schmidt, and P. Boesiger 87

Expression of cystatin C prevents oxidative stress-induced death in PC12 cells.
Nishiyama, K., A. Konishi, C. Nishio, K. Araki-Yoshida, H. Hatanaka, M. Kojima, Y. Ohmiya, M. Yamada, and H. Koshimizu 94

Attenuation of methamphetamine-induced behavioral sensitization in mice by systemic administration of naltrexone.
Chiu, C.-T., T. Ma, and I.K. Ho 100

Nitric oxide pathway is an important modulator of heat loss in rats during exercise.
Lacerda, A.C.R., U. Marubayashi, and C.C. Coimbra 110

doi:10.1016/S0361-9230(05)00405-3

Input from the medial septum regulates adult hippocampal neurogenesis.
Van der Borght, K., J. Mulder, J.N. Keijser, B.J.L. Eggen, P.G.M. Luiten, and E.A. Van der Zee 117

Norfluoxetine and fluoxetine have similar anticonvulsant and Ca^{2+} channel blocking potencies.
Kecskeméti, V., Z. Rusznák, P. Riba, B. Pál, R. Wagner, C. Harasztosi, P.P. Nánási, and G. Szûcs 126

Differential effects of NMDA and AMPA/kainate receptor antagonists on nitric oxide production in rat brain following intrahippocampal injection.
Radenovic, L., and V. Selakovic 133

Chloride concentration affects Kv channel voltage-gating kinetics: Importance of experimental anion concentrations.
Bekar, L.K., M.E. Loewen, G.W. Forsyth, and W. Walz 142

Cyclic estradiol replacement attenuates stress-induced c-Fos expression in the PVN of ovariectomized rats.
Gerrits, M., A. Grootkarijn, B.F. Bekkering, M. Bruinsma, J.A. Den Boer, and G.J. Ter Horst 147

Anticonvulsant effects of 1,25-dihydroxyvitamin D in chemically induced seizures in mice.
Kalueff, A.V., A. Minasyan, and P. Tuohimaa 156

Neuroprotective effect of nicotine against 3-nitropropionic acid (3-NP)-induced experimental Huntington's disease in rats.
Tariq, M., H.A. Khan, I. Elfaki, S. Al Deeb, and K. Al Moutaery 161

Articles

Steady-dose and escalating-dose "binge" administration of cocaine alter expression of behavioral stereotypy and striatal preprodynorphin mRNA levels in rats.
Schlussman, S.D., Y. Zhou, A. Bailey, A. Ho, and M.J. Kreek 169

Isoflurane anesthesia induces biphasic effect on dopamine release in the rat striatum.
Adachi, Y.U., S. Yamada, M. Satomoto, H. Higuchi, K. Watanabe, and T. Kazama 176

Unilateral application of an inflammatory irritant to the rat temporomandibular joint region produces bilateral modulation of the jaw-opening reflex.
Noguchi, M., M. Kurose, K. Yamamura, M. Inoue, Y. Taguchi, B.J. Sessle, and Y. Yamada 182

Decreased dynorphin A (1–17) in the spinal cord of spastic rats after the compressive injury.
Dong, H.-W., L.-H. Wang, M. Zhang, and J.-S. Han 189

Role of spatiotemporal expression of iodothyronine deiodinase proteins in cerebellar cell organization.
Verhoelst, C.H.J., S.A. Roelens, and V.M. Darras 196

Cholinergic stimulation in the posterior hypothalamic nucleus activates angiotensin II-sensitive neurons in the anterior hypothalamic area of rats.
Hagiwara, Y., M. Ohi, and T. Kubo 203

Stress induces rapid changes in central catecholaminergic activity in *Anolis carolinensis:* Restraint and forced physical activity.
Waters, R.P., A.J. Emerson, M.J. Watt, G.L. Forster, J.G. Swallow, and C.H. Summers 210

Lack of effect of reserpine-induced dopamine depletion on the binding of the dopamine-D3 selective radioligand, [^{11}C]RGH-1756.
Sóvágó, J., L. Farde, C. Halldin, E. Schukin, M. Schou, I. Laszlovszky, B. Kiss, and B. Gulyás 219

Differential effect of calmodulin antagonists on MG132-induced mitochondrial dysfunction and cell death in PC12 cells.
Lee, C.S., E.S. Han, Y.S. Han, and H. Bang 225

The neuroprotective efficacy of α-crystallin against acute inflammation in mice.
Masilamoni, J.G., S. Vignesh, R. Kirubagaran, E.P. Jesudason, and R. Jayakumar 235

Involvement of neurotransmitters in urocortin-induced passive avoidance learning in mice.
Telegdy, G., H. Tiricz, and A. Adamik 242

The tryptophan hydroxylase activation inhibitor, AGN-2979, decreases regional 5-HT synthesis in the rat brain measured with α-[^{14}C]methyl-L-tryptophan: An autoradiographic study.
Hasegawa, S., K. Kanemaru, M. Gittos, and M. Diksic 248

Articles

Two new putative susceptibility loci for ADNFLE.
Combi, R., L. Ferini-Strambi, A. Montruccoli, V. Bianchi, M. Malcovati, M. Zucconi, L. Dalprà, and M.L. Tenchini 257

Cerebrospinal fluid levels of neurofilament light in chronic experimental autoimmune encephalomyelitis.
Norgren, N., A. Edelstam, and T. Stigbrand 264

Differences between somatosensory-evoked potentials recorded from the ventral posterolateral thalamic nucleus, primary somatosensory cortex and vertex in the rat.
Stienen, P.J., H.N.M. de Groot, A.J. Venker-van Haagen, W.E. van den Brom, and L.J. Hellebrekers 269

Processing of spatial visual information along the pathway between the supragenicular nucleus and the anterior ectosylvian cortex.
Eördegh, G., A. Nagy, A. Berényi, and G. Benedek 281

Ethics, methodology and the use of placebo controls in surgical trials.
Polgar, S., and J. Ng 290

Changes in mismatch negativity across pre-hypnosis, hypnosis and post-hypnosis conditions distinguish high from low hypnotic susceptibility groups.
Jamieson, G.A., P. Dwivedi, and J.H. Gruzelier 298

Increased movement accuracy and reduced EMG activity as the result of adopting an external focus of attention.
Zachry, T., G. Wulf, J. Mercer, and N. Bezodis 304

Role of $GABA_B$ receptors in GABA and baclofen-induced inhibition of adult rat cerebellar interpositus nucleus neurons in vitro.
Chen, K., H.-Z. Li, N. Ye, J. Zhang, and J.-J. Wang 310

Vasoactive intestinal peptide modulates luteinizing hormone subunit gene expression in the anterior pituitary in female rat.
Gajewska, A., E. Wolińska-Witort, and K. Kochman 319

Autism and Asperger's disorder: Are they movement disorders involving the cerebellum and/or basal ganglia?
Nayate, A., J.L. Bradshaw, and N.J. Rinehart 327

Histopathological effects of delayed reperfusion after middle cerebral artery occlusion in the anesthetized baboon.
Giffard, C., A.R. Young, F. Mézenge, J.-M. Derlon, and J.-C. Baron 335

Special Issue

2nd Conference on NeuroEconomics
ConNEcs 2004
May 25–27, 2004, Münster, Germany

Editorial.
Kenning, P., H. Plassmann, M. Deppe, H. Kugel, and W. Schwindt 341

NeuroEconomics: An overview from an economic perspective.
Kenning, P., and H. Plassmann 343

Neuroeconomics—From neural systems to economic behaviour.
Braeutigam, S. 355

Experimental design in brain activation MRI: Cautionary tales
Savoy, R.L. 361

Motivating forces of human actions. Neuroimaging reward and social interaction.
Walter, H., B. Abler, A. Ciaramidaro, and S. Erk 368

Reward-based decision-making and aging.
Marschner, A., T. Mell, I. Wartenburger, A. Villringer, F.M. Reischies, and H.R. Heekeren 382

The neuroscience of investing: fMRI of the reward system.
Peterson, R.L. 391

Social memory, social stress, and economic behaviors.
Takahashi, T. 398

Variants of uncertainty in decision-making and their neural correlates.
Volz, K.G., R.I. Schubotz, and D.Y. von Cramon 403

Evidence for a neural correlate of a framing effect: Bias-specific activity in the ventromedial prefrontal cortex during credibility judgments.
Deppe, M., W. Schwindt, J. Krämer, H. Kugel, H. Plassmann, P. Kenning, and E.B. Ringelstein 413

A behavioral window on the mind of the market: An application of the response time paradigm.
Mast, F.W., and G. Zaltman 422

Arousal and consumer in-store behavior.
Groeppel-Klein, A. 428

Reasoning or reacting to others? How consumers use the rationality of other consumers.
Pelzmann, L., U. Hudnik, and M. Miklautz 438

Articles

Discrepancy between effects of milligram and nanogram doses of a COX-2 inhibitor (celecoxib) on morphine state-dependent memory of passive avoidance in mice.
Khalilzadeh, A., K. Tayebi Meybodi, A. Vakili Zarch, M.R. Zarrindast, and B. Djahanguiri 443

Sensorimotor transduction of time information is preserved in subjects with cerebellar damage.
Molinari, M., M.G. Leggio, V. Filippini, M.C. Gioia, A. Cerasa, and M.H. Thaut 448

Reversal of ethanol toxicity in embryonic neurons with growth factors and estrogen.
Barclay, D.C., A.F. Hallbergson, J.R. Montague, and L.M. Mudd 459

Metallothionein provides zinc-mediated protective effects against methamphetamine toxicity in SK-N-SH cells.
Ajjimaporn, A., J. Swinscoe, S. Shavali, P. Govitrapong, and M. Ebadi 466

TRPV1 desensitisation and endogenous vanilloid involvement in the enhanced analgesia induced by capsaicin in inflamed tissues.
Baamonde, A., A. Lastra, L. Juarez, A. Hidalgo, and L. Menéndez 476

Neuroprotective potential of dietary restriction against kainate-induced excitotoxicity in adult male Wistar rats.
Sharma, S., and G. Kaur 482

Glycine modulates the center response of ON type rod-dominant bipolar cells in carp retina.
Shen, Y., L. Chen, Y. Ping, and X.-L. Yang 492

Different effects of chronic exposure to ELF magnetic field on spontaneous and amphetamine-induced locomotor and stereotypic activities in rats.
Janać, B., V. Pešić, A. Jelenković, V. Vorobyov, and Z. Prolić 498

Interaction between M1-muscarinic and glutamatergic NMDA receptors on an inhibitory avoidance task.
Moreira, K.M., T.L. Ferreira, R.V. Fornari, L.Z.P. Figueredo, and M.G.M. Oliveira 504

Heat shock proteins protect both MPP^+ and paraquat neurotoxicity.
Donaire, V., M. Niso, J.M. Morán, L. García, R.A. González-Polo, G. Soler, and J.M. Fuentes 509
